DESCRIPTION of SERVICES

Due to the strict current laws in the British Virgin Islands for the realization of charters in its jurisdictional waters, the company iCharter Caribbean (BVI) Ltd., through its commercial brand Catamaran Village, offers the possibility to foreign companies to offer charters under CATAMARAN VILLAGE (by ICharter Caribbean)'S flag. In this way, if the contracting company for the services offered by CATAMARAN VILLAGE (by ICharter Caribbean) meets all the requirements proposed by it, the legality of charters on its vessels is guaranteed.

Some services offererd by CATAMARAN VILLAGE

Flag under CATAMARAN VILLAGE (by ICharter Caribbean): Every charter company that operates in the BVI, must be registered and have its own Trade License. ICC offers you to charter your vessels under ICC Company, so you will operate legally in BVI waters. This is a compulsory service you MUST have.

Charter License: The charter license is a document issued by the BVI administration and must be carried by all charter vessels operating in its waters. ICC manages the obtaining of the aforementioned license. ICC bills the company for the price of the license plus a fee for the request and collection service. This is a once per season service.

Surveillance: Sometimes the Border and Customs Services of the British Virgin Islands require an extra inspection of the vessel. That can be only afloat or afloat and dry. This inspection may be mandatory to grant the charter license. CATAMARAN VILLAGE (by ICharter Caribbean) manages this service on behalf of the owner.

Slip: The vessel will be on a slip. The vessel must have all the defenses and the corresponding mooring lines as well as mooring elements of respect. In case of breakage of the mooring, the replacement mooring/fender will be invoiced. This is a service that is billed monthly. There is no possibility of billing for days of use.

Mooring Ball: The vessel will be in a mooring buoy. This is a cheaper option, however, you need to hire the option of movement the vessel to the pier for the embarkation and disembarkation of the clients. The vessel must have all the anchoring elements in duplicate. This is a service that is billed monthly. There is no possibility of billing for days of use.

Basic Inspection: This is a mandatory service for inspection and surveillance of the vessel, carried out by CATAMARAN VILLAGE (by ICharter Caribbean) staff. It is a service that is performed once a week. The service consists of an ocular inspection of the exterior and interior of the vessel and the firmness of its attachment to the dock/mooring. The inspection of the exterior consists in the control of the firmness of the rigging and the gates and windows. Inside it is inspected that there is no water in the bilge.

Extra Inspection: This service includes basic inspection plus start-up of engines, generator, and watermaker for proper maintenance. CATAMARAN VILLAGE (by ICharter Caribbean) also checks oil levels, air conditioning, cook, toilets, closed faucets and some additional basic things.

Check-In/Check-Out: The check-in/check-out is one of the basic elements of any charter company. This service consists of the reception of the customers in the marina. Briefing of the vessel and the security elements on board. Signature of the contract if necessary. Withholding of deposit. Upon return from the clients, reception and control of all the elements (check-list) and documentation of the vessel. Return of Deposit to customers

Check-In/Check-Out Personalized: It is the same service described in point IV.3(I) but our staff will wear SHIPOWNER'S equipment. This equipment must be provided by the SHIPOWNER in accordance with the agreement.

Provisioning: This point includes the hours that CATAMARAN VILLAGE (by ICharter Caribbean) staff dedicates exclusively to carry out tasks for the SHIPOWNER'S vessel. As an example of this, it is possible to mention the hours that the staff dedicates to make the purchase for the customers, placing the products on the vessel, purchasing maintenance material, etc. Large distance vessel's movements to other locations are also included in this point for inspections, maintenance etc. It is an hourly rate service.

Laundry: The laundry service consists of the collection, washing and ironing of all the bed linen of the vessel once the charter is completed. Before starting the next charter, beds will be made for the guests.

Vessel cleaning in/out: Before starting a charter the vessel will be exhaustively washed from the outside as well as inside, paying special attention to the cabins and toilets. If the SHIPOWNER wants to do an extra wash but the vessel is in a mooring ball, the service of movement (IV.3(s)) to the dock must be added to this service.

Rescue & Assistance: We provide an extra service when a customer needs personal assistance and/or a rescue CATAMARAN VILLAGE (by ICharter Caribbean)'S staff is able to do, or help for his own reasons or due to a mechanical failure. The price of this service does not include towing or additional services contracted as Coast Guards, Maritime Rescue or other services necessary for customer assistance.

Technicians: This service means the hiring of specialized technicians to carry out work on the vessel, such as mechanics, rigging personnel, fiberglass or any other personnel necessary for the maintenance or vessel fixing.

Movements: The movements are those that involve moving the vessel from mooring ball to slip. For example when the vessel is in a mooring ball and must be moved to the dock to embark the

customers, or from the dock to the mooring ball, or to the gas station. It refers to the small movements within the navy. This service is invoiced in a "one way basis" per movement. SHIPOWNER must know that a cleaning service must be done in a slip except for those vessels which has watermaker, and just in that case, depending on the water level, CATAMARAN VILLAGE (by ICharter Caribbean) would wash with vessel's water tank.

Water Toys: Toys requested by customers and rented to CATAMARAN VILLAGE (by ICharter Caribbean) will be billed according to the rate. In case of loss or damage, the SHIPOWNER undertakes to pay for a new one or repair it.

Shuttle: Customers are going to be picked up and returned back to airport/ferry by our transportation or taxi.

Customer Service: Most clients usually want to contact the base's staff to answer questions about the charter. Our staff will answer the customer's questions by phone or via email, without the express intervention of the SHIPOWNER.

Storage space: The vessels usually carry various materials that are not necessary in all the charters. CATAMARAN VILLAGE (by ICharter Caribbean) offers the possibility of renting additional storage space in its facilities. This is a monthly billing service.

Skippers, Hostess, Cook and Others: CATAMARAN VILLAGE (by ICharter Caribbean) provides any kind of staff such as skipper, hostess, cook and others. This is an extra service that must be paid at least 3 weeks before customers arrive. After this period this service will increase by 20%.

Work Permits: For that vessels that came with their own staff, they will need a BVI work permit. All SHIPOWNER's staff documents must be presented to CATAMARAN VILLAGE (by ICharter Caribbean) at least 3 months before the vessel arrive to BVI waters. CATAMARAN VILLAGE (by ICharter Caribbean) is not responsible for the delays caused by the administrations nor for the late arrival of the requested documents to the SHIPOWNER. In case of any charge for the acquisition of permits, this would be billed to the SHIPOWNER.
